DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a tall, three story office and apartment building being four bays wide, seven bays long and with a 1/2 bay, three story frame extension across the entire rear. The roof is stepped down in height from front to back. All brickwork is of common bond and has been restored. The front entrances to the offices and apartments occupy the outside bays and are tied together bay a ~~two~~ bay wide, triple, multipaned window section in the center and a colonial style cantilevered metal hood across the entire facade. On either side of the central window are colonial style sign boards with hoods announcing the occupants. The doors have nine sashes, wood panels beneath, and overlights above. Low porches with metal railings lead to the entrances. A wide wooden frieze beneath the hood announces the name of the building. This is an outstanding example of the colonial motif applied to an otherwise plain building of no particular style. The second and third story windows on the front are of 6/6 sash, have flat brick arches, wood sills and louvered shutters. Side and rear upper windows are of 6/6 sash with segmental arches of two row header brick and have wood sills. The first floor side and rear windows are of 1/1 sash with segmental arched windows and wood sills. An overhanging moulded cornice with pendant modillions and a paneled frieze between the two end brackets fronts the roofline. Carriage lamps and planted window boxes on the metal porch railings add much to the attractiveness of the entrance area.
